SPECIFICATIONS

Transformer Base - The steel fabricated base is a permanent, non-breakaway device. The top and bottom plates are fabricated from structural quality hot rolled carbon steel plate. The casing or shroud separating the top and bottom plates is manufactured from 7 Gauge (0.1793") material. Contact Valmont for loading restrictions.

Access Door - A steel access door and grounding provision is provided. The door opening is 15.50" tall, 6.13" wide at the top, and 8.75" wide at the bottom. A hinged door is available upon request.

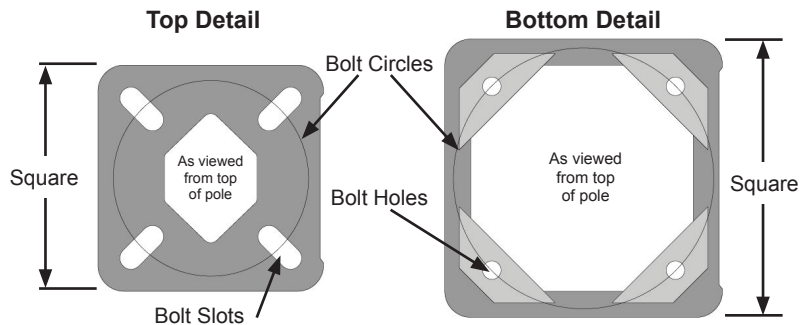

Hardware - Connecting bolts, flat washers, retaining lugs and hex nuts are provided per base assembly. All structural fasteners are galvanized high strength carbon steel. All non-structural fasteners are galvanized or zinc-plated carbon steel or stainless steel.

Finish - Standard finishes are galvanized, prime painted or any of Valmont's V-PRO™ Protection Systems. Additional finish options available upon request.
