

Grain Handling

Valmont began business by making agriculture equipment in America's farm belt over six decades ago. Grain handling manufacturers and distributors have relied on Valmont Tubing for more than 50 of those years. Our broad size range, central location and ability to produce large OD light wall tubing help customers find innovative, more efficient ways to handle grain and feed the world.

Whether the end use is grain augers, spouting, conveying, pneumatic, grain carts or bin components, Valmont offers you advantages that no other tubing mill can.

Benefits include:

- Size range from 1.125" up to 16" round – including 6", 8", 10", 12", 12.75" and 14"
- Light wall capabilities, reducing weight and allowing for easier maneuvering
- Finishes including hot rolled, galvanized, hot-dip galvanized and 409 stainless
- Frequent roll cycles for quick turnaround
- Low mill minimums of OD sizes and shipment of multiple sizes
- Precise tolerance capabilities, including OD, length and ovality
- Large indoor storage and loading facility, ensuring your tubing's surface condition is prime
- Responsive customer service and technical expertise to ensure that your order arrives on time and consistently exceeds your expectations
