

Gain  
hands-on,  
**real-life**  
experience.

At Valmont®, our interns are actively involved and immersed in the company, doing meaningful projects. You'll learn firsthand what it takes to run a leading, global organization. You'll be engaged, encouraged and inspired. You'll also have fun along the way.

### **Valmont Internship Program Highlights:**

**10-week Program:** First week of June to the first week of August

**Kickoff:** Formal orientation followed by intern celebration lunch at the end of the week

**Weekly Expert Meetings:** Division leaders present various topics to give you a holistic view of the company

**Social Events:** Multiple opportunities in social settings for you to connect with your peers

**Community Engagement:** Participate with your coworkers at volunteer events

**Interview Senior Leadership:** Gain insight from upper management and discuss your projects

**Presentation to Senior Leadership:** Share what you learned and how what you did impacted the company

We inspire  
you to  
**change**  
the world.

**TYLER**, Senior Accountant

“ I was able to visit six continents and work with people from all over the world on successful projects. Now, Valmont has moved me to Rome, Italy, to better the business as well as develop my international business skills. ”

Tyler joined the Valmont® team as an audit intern in 2015. We saw the potential in Tyler and hired him immediately after he completed his internship. In just five years he has risen to senior auditor. When Tyler asked for a career advancement, we presented him with an opportunity within six weeks. A month later we promoted him to senior accountant operating out of Rome. Tyler's journey with Valmont has led him to six continents to work with people from all over the world.

**GRANT**, Operations Analyst Intern

“ Valmont prepared me for a career by providing essential job experience in an international setting. I'm working on projects that will effect the company's future. ”

As an intern, Grant was given the freedom to seek out potential problems and provide possible solutions that he could implement for both domestic and international projects. We knew Grant would be a good fit as an intern because of his interest in working in an international environment and his desire for constant learning. While Grant embraces diversity at Valmont which allows for a broad set of opinions and worldviews, we support his drive to make changes that will impact the future of the company.

**SARA**, Civil Engineering Intern

“ At Valmont, I was able to get hands-on experience in the field.  
They let me grow at my own pace. ”

When Sara started her internship, she wasn't sure which discipline of civil engineering she wanted to pursue. By being immersed in real projects and by learning from a diverse engineering team, she found her career path as a structural engineer. She is thriving in an environment where she works with a team that comes from a variety of backgrounds, giving her unique advice and input.
