POLE GUARD

It's tougher than the toughest weeders.

- Protects pole surface from abrasion and impact damage at groundline
- Can be used on composite, metal or wood poles
- Standard sizes to fit most diameter poles
- Simple two-piece design
- Available in eight standard colors
- Optional tamper resistant hardware available
- Fast, easy installation

1. Clear ground line

2. Place Pole Guard halves around pole

3. Tighten hardware

POLE GUARD

Weed Control Doesn't Have to Eat Poles

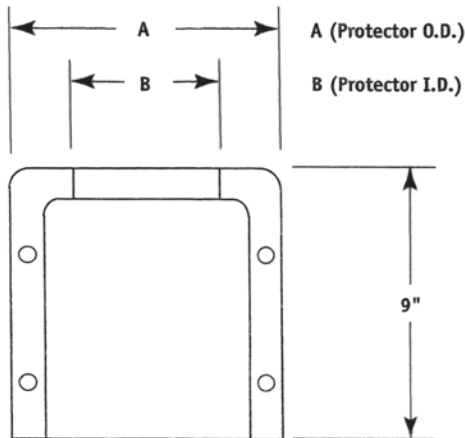

CMT'S Pole Guard keeps weed control devices from damaging your poles. The easily installed pole guard fits around the pole at the ground line. It bolts into place like a collar, and takes the hits when the weed controllers do their work around the pole.

CMT'S Pole Guard is tough. Much tougher, in fact, than nylon cord-type weed control devices, so it hardly even notices their assaults. It even gallantly withstands long abuse from chain-type devices. If it ever does get damaged, just replace the pole guard instead of the pole, so weeder abuse can start anew, inexpensively.

O.D. OF CMT POLE GUARDS	
I.D. RANGE	O.D.
5.0" - 6.5"	9.5"
6.5" - 8.0"	11.0"
8.0" - 9.5"	12.5"
9.5" - 11.0"	14.0"
11.0" - 12.5"	15.5"

CMT Pole Guard

CMT Pole Guard I.D. (in.)*	Painted: Y = Yes, N = No
PG6.5	Y
	5
	A
Pigmented -In Color: 1 = Black 2 = Grey 3 = Brown 4 = Green 5 = Dark Bronze 6 = Silver 7 = White 8 = Antique Green	H = Hex Socket P = Pin in Socket S = Slotted Head

*Inches I.D. should be at least 1/4" larger than O.D. of shaft at 1" above Grade.

How to Order

Pole Guards are available with I.D. of 5.0" to 12.5" for use with a variety of poles. O.D. is shown in the chart above.
