

Highway Safety, Marking, and Traffic Control Products

Who we are

With more than 30 years of experience serving highway, utility, and federal recreation markets, Carsonite has developed distinctive products and applications geared to each market. Our posts offer the maximum in durability and flexibility to address vehicle impacts and a variety of soil conditions. Carsonite posts are engineered to enhance visibility, simplify installation, withstand the elements and increase safety.

Our markers and delineators are the industry standard. Many of the marking products in wide use today are based on Carsonite patents. Our trademarked profiles remain the standard by which all other markers are measured, and Carsonite's easily identifiable products are manufactured and assembled in the United States.

Carsonite is committed to excellence. Our name appears on all of our products, and we are dedicated to customer service. Our sales representatives and a vast distribution network stand ready to serve you with quality products and timely delivery.

Withstands Highway-Speed Vehicle Impacts

The Roadmarker, with its three-rail design was the first fiberglass composite highway marker in the industry and remains the most popular marker in the market. Two ribs on the side protect sheeting from vehicle impacts while the back rib gives added strength for driving into hard soil conditions.

Carsonite High Performance RoadMarkers are designed to stand up to nature as well as vehicular impacts, controlled ditch burns, and even small arms gunfire.

Curv-Flex™ Marker

CFR

Drivable, Flexible, Impact Resistant Marker

Our most flexible fiberglass composite marker. The Curv-Flex is recommended for areas where vehicle impacts are likely. With its trademarked curve and flange profile, the Curv-Flex marker withstands direct tire impacts. In dense soil conditions, the Curv-Flex may require a small pilot hole before installation.

360-Degree Sleeve

Convert Carsonite's flat fiberglass composite markers to 360-degree posts by adding a Visibility Enhancer. Easily retrofitted in the field, the enhancers fit Carsonite's RoadMarker™ (CRM), Dual Sided (CIB) and Tuff-Flex™ Markers (CTFM). Available in white, yellow or orange. The sheeting area is 17" high.

Visibility Enhancer™ Unit

CVE3

Carsonite RoadMarker™ with Visibility Enhancer

When ordered as unit, the Visibility Enhancer is shipped from the factory with a pre-drilled RoadMarker (CRM) standard for ease of installation. Apply reflective sheeting to increase visibility.

Guard Post and Bollard Cover

IGP

Inexpensive Solution

The Carsonite Guard Post and Bollard Cover is an inexpensive solution to maintenance and visibility problems with guard posts. They offer a durable, bright yellow surface which helps to alert people to potential dangers in and around loading docks, hazardous equipment, electrical distribution, parking facilities, and gasoline dispensing and storage areas.

Simply slip the cover over the guard post for a clean, highly visible, finish. Add reflective sheeting for added visibility. Use our 40 Series for guard posts 4.5" diameter and below, and our 60 Series for posts 4.5" to 6.5" diameter.

Hazard Signs and Hazard Chevron Signs

Carsonite Hazard Markers, with 3" wide stripes, warn motorists of avoidable risks outside the designated driving lanes. Available on various reflective media and in a variety of colors and sizes, these markers enhance driver safety.

Carsonite Signs

Stock and Custom Made

Carsonite's high performance composite signs are made from 0.090" or 0.135" fiberglass reinforced composite material. Available in reflective or non-reflective substrates, these signs stand up to the harshest of environments. Our state-of-the-art processes yield permanent, UV-resistant displays. With our in-house graphics department, Carsonite can help you design your sign with custom logos and phone numbers. Composite signs are available from 3" x 3" to 48" x 48". Please visit us at our website to see more standard and custom signage.

Carsonite Decals

Stock and Custom Made

Conveying the proper message is at the heart of your marking needs. Carsonite offers a wide selection of standard decals on both reflective and non-reflective media. These pressure-sensitive, UV- and weather-resistant decals can be ordered in a wide variety of colors and sizes. Personalize your marking with custom decals displaying your company name, logo, and phone number. With over 30 years of experience, Carsonite's in-house graphics department can help you design any custom decal. When ordered with Carsonite posts, the decals can be applied for you at the factory.

MGS

Modular Guidance System™

Blades:

NMGS Base Rail:

WMGS Base Rail:

Material: Fiberglass Composite

Options and Accessories: Reflective Sheeting

Blades can be attached to base rail before going on site.

For Excellence In Work Safety

Carsonite's Modular Guidance System is designed to block blinding headlight glare from opposing traffic lanes. This anti-glare screen comes with a base rail system that allows quick and simple installation, limiting the amount of time workers spend installing the system. The base rail units come pre-sized for 10, 12, 12.5 and 15' barriers. The blades, available in various heights, are adjustable up to 22 degrees to optimize cut-off angle. In addition, Carsonite's MGS prevents motorists from impeding traffic flow by gawking into construction zones. The system efficiently and safely guides motorists through the zone.

Base rail attachment hardware included.

Modular sections attach easily to concrete barriers.

Carsonite AcoustaShield™ Sound Barriers

How to Order:

Contact your representative or visit our website to request more information and an AcoustaShield information packet.

- ▶ Meets AASHTO and DOT sound wall guidelines
- ▶ Low maintenance over life of product
- ▶ Wide variety of colors available
- ▶ Spans up to 18 feet
- ▶ Graffiti resistant
- ▶ Lightweight, easily installed with minimal equipment
- ▶ Non-conductive fiberglass supports and panels

Material: Fiberglass Composite

Effective Against Noise and Light Pollution

Carsonite's AcoustaShield Sound Barrier provides noise abatement along transportation corridors, as well as other applications requiring long-term outdoor durability, vandal resistance and ease of construction.

Easily customized, the system lets you design your sound barrier to fit your specific needs. Choose from unfilled, recycled-rubber filled, or absorptive options. These lightweight panels can be installed by a small crew without the use of heavy lifting equipment. The flame retardant panels can be easily cut in the field if on-site adjustments are needed. For applications under 15' in height, inquire about our fiberglass uprights.

Highest Performance, Best Looking, and Easiest to Install and Maintain

Ratings			
	AcoustShield Absorptive	AcoustaShield Filled	AcoustaShield Unfilled
STC Rating	28	37	28
NRC Value	.95	.15	.20

At only 5 to 7 pounds per square foot, AcoustaShield does not add unnecessary weight to bridge structures.

Material: Welded Steel

For All Soils and Applications

Carsonite's Standard Post Driver (PDR1) is used to install Utility Marker, Tuff-Flex™, Curv-Flex™, Dual-Sided Marker and GreenLine™ Single Curve Marker. 48" in length, this driver is for posts from 5 to 6 feet long.

Carsonite's Long Post Driver (PDL1) is used to install Utility Marker, Tuff-Flex, Curv-Flex, Dual-Sided Marker and GreenLine Single Curve Marker. At 56" in length, it is for posts over 6' long.

Carsonite's Short Post Driver (D400S) is used to install Utility Marker, Tuff-Flex, Curv-Flex, Dual-Sided Marker and GreenLine Single Curve Marker. At 24" in length, this driver is for posts under 5' long.

The Sentry™ Socket Driver (RMTLDSMD10) is for installing Sentry post sockets.

The Guide Tube (RMTLPGT1) gives an added assist in keeping posts vertical during installation. Also useful in preventing posts from flexing when installing into hard or rocky soil. The Guide Tube is useful with RMTLPDR1 or RMTLPDL1 drivers.

Utility ID Post Driver (RMTLD250). This accessory is intended for use with the Utility ID Post (CBM).

The U-Channel Driver (RMTLDSD300) is intended for installing Carsonite's Curv-Flex or other Carsonite markers that utilize the U-Channel option.

The Pilot Hole Driver (RMTLDP100) is for use in hard or rocky soil when driving posts can be exceedingly difficult. The driver's spaded head leaves a hole to assist in driving the post. For use with all Carsonite markers.

Carsonite's Post Puller (RMTLCPP) is used to remove posts that may need replacing. Use the Post Puller with any of our flat markers.

Other specialized tools are also available. Contact your representative.

ANCHOR BARBS

Protection from Theft

Anchor bars are intended to prevent the post from being pushed out of the ground during freeze/thaw cycles, as well as from attempts to pull them out by would-be vandals. Anchor bars are available in polycarbonate. Purchase in packs of 10 or have them factory installed when ordering posts.
