

Your Best Source For Quality, Durability, and Innovation

**Marking, Testing, Safety,
and Installation Products
for Telecommunications, Oil
and Gas Pipeline, Water,
Sewer and Power Utilities**

Who we are

With more than 30 years of experience serving highway, utility, and federal recreation markets, Carsonite has developed distinctive products and applications geared to each market. Our posts offer the maximum in durability and flexibility to address vehicle impacts and a variety of soil conditions. Carsonite posts are engineered to enhance visibility, simplify installation, withstand the elements and increase safety.

Our markers and delineators are the industry standard. Many of the marking products in wide use today are based on Carsonite patents. Our trademarked profiles remain the standard by which all other markers are measured, and Carsonite's easily identifiable products are manufactured and assembled in the United States.

Carsonite is committed to excellence. Our name appears on all of our products, and we are dedicated to customer service. Our sales representatives and a vast distribution network stand ready to serve you with quality products and timely delivery.

Impact resistant, three-rail marker

The Utility Marker, with its three-rail design, was the first fiberglass composite utility marker in the industry and remains the most widely used fiberglass marker on the market. Two ribs on the side protect decals from vehicle impacts while the back rib adds strength for driving into hard soil conditions.

Carsonite High Performance RoadMarkers are designed to stand up to nature as well as vehicular impacts, controlled ditch burns, and even small arms gunfire.

Curv-Flex™ Marker

CFR

Drivable, flexible, impact resistant marker

Our most flexible composite marker. The Curv-Flex is recommended for areas where vehicle impacts are likely. With its trademarked curve and flange profile, the Curv-Flex marker withstands direct tire impacts. In dense soil conditions, the marker might require a small pilot hole before installation.

360-degree sleeve

Convert Carsonite's flat fiberglass composite markers to 360-degree posts by adding a Visibility Enhancer. Easily retrofitted in the field, the enhancers fit Carsonite's Utility Markers™ (CRM), Dual Sided Markers (CIB) and Tuff-Flex™ Markers (CTFM). Available in white, yellow or orange. The decal area is 16" high.

Visibility Enhancer™ Unit

CVE3

Carsonite Utility Marker™ with Visibility Enhancer

When ordered as unit, the Visibility Enhancer is shipped from the factory with a pre-drilled Utility Marker (CRM) standard for ease of installation. Apply custom decals or reflective sheeting to increase visibility.

Dome Top Line Marker with Visibility Enhancer and T-anchor

The Carsonite LineMarker has a 3.5" diameter post with a 3.75" diameter domed enhancer for maximum visibility. White yellow and orange are standard; other colors are available. It's supplied with a T-anchor for protection against removal by vandals. Ideal for marking underground utilities and rights of way.

The enhancer comes in 18" or 24" length and comes with two custom, UV-resistant direct-printed graphics.

The LineMarker is made from tough, impact resistant thermoplastic polymer. Also available as a telecommunications or utility test station.

Ideal for marking

Carsonite's Visi-Post is a 3.5" outside diameter post constructed of a tough thermoplastic polymer. The post provides simple 360-degree visibility and is an economical solution to your marking needs. Decals can be applied at factory. T-anchor (included) prevents upturning and vandalism.

Carsonite enhancer for existing round posts

The Retrofit Enhancer can be field installed to replace outdated markers or update messages. This enhancer fits over any 3.5" post or it can be attached to Carsonite's VisiPost for field upgrades. Available in orange, yellow, red and blue, and in lengths of 18" and 24". Add Carsonite direct graphics or decals.

Ideal for marking

The PermaPost is a 4" x 4" square fiberglass composite marker with ample room for application of decals. This marker is intended for use in environments that are unsuitable for plastic markers.

Carsonite Signs

How to Order:

(c u s t o m)

Product number

All signs are custom, including stock designs, and Product numbers are generated by the graphics department at the time of production. Please visit WWW.CARSONITE.COM to see available designs, or design your own and call us for a quote. In addition, many of our most frequently ordered signs can be purchased directly from the website by visiting WWW.CARSONITE.COM/PRODUCTS.ASP.

Stock and custom made

Carsonite's high performance composite signs are made from 0.090" or 0.135" fiberglass reinforced composite material. Available in reflective or non-reflective substrates, these signs stand up to the harshest of environments. Our state-of-the-art processes yield permanent, UV-resistant displays. With our in-house graphics department, Carsonite can help you design your sign with custom logos and phone numbers. Composite signs are available from 3" x 3" to 48" x 48". Visit us at WWW.CARSONITE.COM to see more standard and custom signage.

Direct Printed Graphics

How to Order:

(c u s t o m)

Product number

All Direct Printed Graphics are custom. Product numbers are generated by the graphics department at the time of production.

Printed directly on the posts

Carsonite can print directly to any of its flat posts and domed enhancers. These one-color graphics are designed for environments too harsh for decals or where vandalism is a controlling issue. The hardened inks used for our direct graphics process will not peel in high heat environments and last for years in the most extreme sun exposure areas. Let our in-house graphics department help you choose from standard graphics or design your own custom graphic, including your company logos.

Enhance Visibility

Carsonite offers a full array of reflective media that can be permanently applied to your posts at the factory or shipped separately. Standard widths are 3.0", but others are available on special order—contact your representative.

Reflective Sheeting is available in three grades:

- Engineer Grade (RSE30) Type I

Material: Fiberglass Composite

Options: Pedestal markers, call for details

BD4

Pedestal Features

Weatherability

Our BD4 Pedestal is pigmented throughout the entire structure. This produces a uniform color which is integral to the material. UV resistant materials are incorporated in the construction to inhibit fading and cracking. The BD4 is painted with a UV resistant coating.

1 INTERLOCKING DESIGN

Prevents dust, dirt, rain and insects from intruding.

2 LARGE LOOP SUPPORTS

Ideal for 144 Cable with space to wrap 40 feet of tubes.

3 SPLICE TRAY SUPPORTS

Built in support ledges provide ample space to install multiple splice trays.

4 FIBERGLASS COMPOSITE SHELL

Material is non conductive and will not rot, rust, or corrode. Material is flame retardant and will not support a flame.

5 OPTIONAL PEDESTAL MARKER

Carsonite has variety of appropriate markers to choose from depending on your specific application.

6 MULTIPLE ZIP TIE LOCATIONS

To help keep tubes neat and manageable.

7 BONDING BRACKET

Bonding bracket capable of mounting in three locations (A, B or C).

8 RECESSED NESTING GROOVE

Slide tracks and recessed nesting prevents partial closure of pedestal.

9 INTEGRAL MOUNTING BRACKET

Is used for mounting optional pedestal markers (markers not included).

How to Order:

Contact your representative or visit WWW.CARSONITE.COM to request more information and an AcoustaShield information packet.

- ▶ Non-conductive fiberglass supports and panels
- ▶ Can be modified and cut in the field
- ▶ Low maintenance over life of product
- ▶ Wide variety of RAL colors available
- ▶ Spans up to 18 feet
- ▶ Graffiti resistant
- ▶ Will not rust, rot, or corrode
- ▶ Lightweight, can be installed with minimal equipment

Effective against noise and light pollution

Carsonite's AcoustaShield Non-Conductive Sound Barrier alleviates noise concerns as well as providing safety and security around compressor and regulator stations. The fiberglass wall deters would-be vandals, excludes wildlife and hides unsightly equipment from growing neighborhoods. The non-conductive walls can be filled with absorptive material or our standard walls may be filled with recycled tire rubber for increased abatement.

Lightweight, but extremely strong, AcoustaShield systems are easily installed with minimal lifting equipment and simple to repair in the event of vehicle impacts. Gates and door assemblies are available.

Material: Fiberglass composite

Installation Tools

For all soils and applications

Utility Marker, Tuff-Flex™, Curv-Flex™, Dual-Sided Marker and GreenLine™ Single Curve Marker. 48" in length, this driver is for posts from 5 to 6 feet long.

Carsonite's Long Post Driver (PDL1) is used to install Utility Marker, Tuff-Flex, Curv-Flex, Dual-Sided Marker and GreenLine Single Curve Marker. At 56" in length, it is for posts over 6' long.

Carsonite's Short Post Driver (D400S) is used to install Utility Marker, Tuff-Flex, Curv-Flex, Dual-Sided Marker and GreenLine Single Curve Marker. At 24" in length, this driver is for posts under 5' long.

The Sentry™ Socket Driver (RMTLDSMD10) is for installing Sentry post sockets.

The Guide Tube (RMTLPGT1) gives an added assist in keeping posts vertical during installation. Also useful in preventing posts from flexing when installing into hard or rocky soil. The Guide Tube is useful with RMTLPDR1 or RMTLPDL1 drivers.

Utility ID Post Driver (RMTLD250). This accessory is intended for use with the Utility ID Post (CBM).

The U-Channel Driver (RMTLDSD300) is intended for installing Carsonite's Curv-Flex or other Carsonite markers that utilize the U_Channel option.

The Pilot Hole Driver (RMTLDP100) is for use in hard or rocky soil when driving posts can be exceedingly difficult. The driver's spaded head leaves a hole to assist in driving the post. For use with all Carsonite markers.

Carsonite's Post Puller (RMTLCPP) is used to remove posts that may need replacing. Use the Post Puller with any of our flat markers.

Other specialized tools are also available. Contact your representative.
