

HELLO MODERN WORKFORCE. IS THAT YOU?

We're here to move the world forward — and we believe internships are vital to that. This is your chance to help modernize vital infrastructure and increase agricultural productivity, sustainably and reliably. Join us, as we take the promise of technology and make it usable in the real world.

⊕ THAT'S THE VALUE WE'LL ADD. TOGETHER.

DO SOMETHING GREATER THAN YOU THOUGHT POSSIBLE.

Join our next internship class and get hands-on experience in the day-to-day business of this global company. Learn one-on-one from subject-matter experts, present your accomplishments to management, and interview with senior leadership — all as part of a structured program lasting 10 weeks.

80% OF OUR INTERNS MOVE INTO FULL-TIME ROLES: **MANY OF US USED TO BE YOU**

Which of these internships is your internship?

Now hiring interns in these areas:

- Engineering
- Technology & Software
- Finance & Accounting
- Human Resources
- Sales & Marketing
- Health & Safety
- Operations & Supply Chain

Benefits

Learn, earn and go home proud. Here are just some of our benefits:

- Competitive compensation
- Great benefits, like a 401(k) for all interns, and medical coverage for interns working more than 25 hours a week
- Flexible hours during school year, full-time (40 hours) during summer
- Projects to manage from beginning to end, collaborating with some of the best professionals in the industry
- Network opportunities with senior leadership
- Development opportunities including leadership courses, Agile certification, LinkedIn profile training and more

GO TO WORK. GET PAID. HELP SAVE THE PLANET.

Sustainability is at the core of who we are.

\$145 B

Cost in 2021 of all U.S. climate-related events — our utility structures help harden the grid.

2.7 GW

Energy produced by our solar solutions — enough to power more than 2 million homes a day.

4T gal

Amount of water saved globally each year by our center pivots — over 228,000 currently in use.

800 M

Number of people connected globally to the internet in the last two years — we're helping close the digital divide.

JOIN OVER 11,000 EMPLOYEES ACROSS THE GLOBE.

Valmont is here to modernize vital infrastructure and increase agricultural productivity, sustainably and reliably — hardening the grid to be more resilient, enhancing connectivity with smart technology, increasing agricultural productivity, and developing infrastructure solutions that move the world forward into the next century. As a Fortune 766 company with 85 manufacturing facilities in 22 countries, we are the modern workforce.

LET'S GET GOING. APPLY NOW.
